

Stilcon 3X

Calcium Carbonate (80mg) + Sodium Alginate (250mg) + Sodium Bicarbonate (133.5mg) Syrup

Composition: Each 10 ml of syrup contains:

- **Calcium Carbonate** – 80 mg
- **Sodium Alginate** – 250 mg
- **Sodium Bicarbonate** – 133.5 mg

Pharmacological Actions:

1. **Calcium Carbonate:** A calcium supplement that helps neutralize stomach acid, providing relief from heartburn, acid reflux, and indigestion. It also helps in maintaining healthy bones and teeth.
2. **Sodium Alginate:** A natural polysaccharide that forms a gel-like substance when in contact with stomach acid. It helps create a physical barrier over the stomach contents, reducing acid reflux and preventing heartburn.
3. **Sodium Bicarbonate:** A mild antacid that helps neutralize excess stomach acid. It also reduces bloating and discomfort caused by indigestion.

Indications:

- Relief from heartburn, acid reflux, and gastroesophageal reflux disease (GERD).
- Treatment of indigestion and upset stomach.
- Soothing and protective barrier for the esophagus and stomach lining.
- Symptomatic relief of acid-related conditions.

Dosage and Administration:

- **Adults:** 10-20 ml after meals and before bedtime, or as directed by a physician.
- **Children (under 12 years):** 5-10 ml after meals and at bedtime, or as advised by a healthcare provider.
- **Children under 6 years:** Not recommended without medical advice.

The syrup should be taken orally. Shake the bottle well before use.

Contraindications:

- Hypersensitivity to any of the components of the syrup.
- Patients with severe kidney problems, especially those with impaired renal function, should avoid this product due to the calcium and sodium content.
- Should not be used by individuals with a history of hypercalcemia (high calcium levels in the blood).

Warnings and Precautions:

- Caution should be exercised in patients with hypertension, as sodium bicarbonate can increase sodium levels in the body.
- Long-term use may lead to excess calcium levels, so regular monitoring of calcium levels is advised.
- Should be used with caution in patients with kidney disorders or heart disease.
- Not intended for use in pregnant or breastfeeding women unless specifically recommended by a doctor.

Side Effects:

- **Common:** Mild stomach upset, bloating, nausea, or constipation.
- **Rare:** High calcium levels (hypercalcemia), kidney stones, or an allergic reaction to any of the components (e.g., rash, itching, or swelling).

Storage: Store in a cool, dry place at room temperature (15-25°C). Keep the bottle tightly closed and protect it from direct light. Keep out of the reach of children.

Presentation: Available in 100 ml and 200 ml bottles.
