

Telbolife AM

Telbolife AM Tablet

Composition: Telmisartan 40mg + Amlodipine 5mg

Introduction

Telbolife AM Tablet is a **bilayered antihypertensive medication** that combines **Telmisartan (ARB)** and **Amlodipine (Calcium Channel Blocker - CCB)** to effectively **control high blood pressure (hypertension)** and **reduce cardiovascular risks**. This dual-action formula **relaxes blood vessels, improves blood circulation, and prevents heart-related complications**.

Key Benefits

- **Effective Blood Pressure Control** – Manages hypertension with a single tablet.
- **Dual-Action Formula** – Telmisartan blocks angiotensin receptors, while Amlodipine relaxes blood vessels.
- **Reduces Risk of Stroke & Heart Attack** – Supports long-term heart health.
- **24-Hour Blood Pressure Regulation** – Ensures steady BP control throughout the day.

Indications & Uses

- **Hypertension (High Blood Pressure)**
- **Heart Attack & Stroke Prevention**
- **Cardiovascular Disease Management**

Dosage & Administration

- **One tablet daily**, preferably at the same time each day.
- Can be taken **with or without food**, as prescribed by a doctor.

Precautions & Storage

- **Monitor blood pressure regularly** for effective control.
- **Avoid excessive salt intake and alcohol consumption.**
- Not recommended for **pregnant or breastfeeding women**.
- Store in a **cool, dry place**, away from direct sunlight.

Conclusion

Telbolife AM Tablet is a **powerful combination therapy** for **hypertension management**, providing **superior blood pressure control, heart protection, and improved circulation**, ensuring **long-term cardiovascular health**.
