

# Ticaglide 90

## **Ticaglide 90 Tablet**

**Dosage Form:** Tablet

**Therapeutic Category:** Antiplatelet Agent

### **Composition (Each film-coated tablet contains):**

- Ticagrelor – 90 mg

### **Description:**

Ticaglide 90 Tablet contains Ticagrelor, a direct-acting and reversible P2Y<sub>12</sub> receptor antagonist. It inhibits platelet activation and aggregation by blocking ADP-mediated signaling, making it effective in reducing thrombotic cardiovascular events in patients with acute coronary syndromes (ACS).

### **Indications:**

- Acute coronary syndrome (ACS), including unstable angina, non-ST elevation myocardial infarction (NSTEMI), or ST elevation myocardial infarction (STEMI)
- Prevention of atherothrombotic events in patients undergoing percutaneous coronary intervention (PCI)
- Secondary prevention of myocardial infarction or stroke

### **Dosage and Administration:**

- Recommended dose: 90 mg twice daily
- To be administered with low-dose aspirin (75–100 mg/day), or as directed by the physician
- May be taken with or without food

### **Contraindications:**

- Hypersensitivity to Ticagrelor or any component of the formulation
- Active pathological bleeding (e.g., peptic ulcer, intracranial hemorrhage)
- History of intracranial hemorrhage
- Severe hepatic impairment

### **Warnings and Precautions:**

- Monitor for signs of bleeding
- Use with caution in patients with moderate hepatic impairment or gout
- Discontinue 5 days prior to any surgery, if possible
- Not recommended during pregnancy or lactation unless prescribed

### **Adverse Effects:**

- Dyspnea
- Bleeding (including gastrointestinal and intracranial)
- Bradyarrhythmias
- Elevated uric acid and serum creatinine levels

**Storage:**

- Store below 30°C
- Protect from moisture and direct sunlight
- Keep out of reach of children

**Conclusion:**

Ticaglide 90 Tablet is a potent antiplatelet therapy for reducing thrombotic cardiovascular risk in patients with ACS. Its rapid onset and reversible mechanism make it a reliable option in acute and long-term cardiovascular care.
