

Information For the User

Timolol (0.5% w/v)

Timshell Eye Drop

Timshell Eye Drops

Composition:

Each ml contains:

- **Timolol Maleate I.P. (0.5% w/v)** (equivalent to Timolol)
- **Excipients** – q.s.

Description:

Timshell Eye Drops contain **Timolol**, a **beta-blocker** that reduces **intraocular pressure (IOP)** by **decreasing aqueous humor production**, making it effective for **glaucoma and ocular hypertension management**.

Indications:

- **Primary open-angle glaucoma**
- **Ocular hypertension**
- **Secondary glaucoma** (as advised by a physician)

Dosage & Administration:

- **1 drop in the affected eye(s) twice daily** or as directed by a physician.

Contraindications:

- **Hypersensitivity to Timolol or beta-blockers**
- **Severe COPD or asthma**
- **Bradycardia, heart block, or heart failure**

Warnings & Precautions:

- **For ophthalmic use only**
- **Avoid touching the dropper tip** to prevent contamination
- Use with caution in patients with **diabetes, respiratory disorders, or cardiovascular diseases**
- Remove **contact lenses before application** and wait **15 minutes before reinsertion**

Adverse Effects:

- **Mild burning, stinging, or irritation** upon instillation
- **Blurred vision** (temporary)
- **Bradycardia, dizziness, or fatigue** (rare)

Storage:

- Store below **30°C**, away from direct sunlight
- **Discard after 4 weeks** of opening
- **Keep out of reach of children**
