

Diziderm NM Cream

Clobetasol (0.05% w/w) + Miconazole (2% w/w) +
Neomycin (0.5% w/w) Cream

Composition

Each gram of cream contains:

- Clobetasol Propionate (0.05% w/w)
- Miconazole Nitrate (2% w/w)
- Neomycin Sulfate (0.5% w/w)

Indications

This cream is indicated for the topical treatment of a wide range of dermatological conditions, particularly those involving mixed infections (both fungal and bacterial), including:

- Inflammatory Skin Conditions (such as eczema, dermatitis, or psoriasis)
- Fungal Infections (such as tinea, candidiasis, and ringworm)
- Bacterial Skin Infections (due to susceptible organisms)
- Mixed Infections: Particularly in conditions where both fungal and bacterial infections occur together.

It is commonly used for:

- Tinea Corporis (Ringworm)
- Tinea Pedis (Athlete's Foot)
- Tinea Cruris (Jock Itch)
- Candidiasis (Yeast Infections)
- Psoriasis with Secondary Infection
- Seborrheic Dermatitis with Infections

Mechanism of Action

- Clobetasol Propionate: A potent corticosteroid that works by reducing inflammation, redness, and

itching by inhibiting immune responses in the skin, making it effective for inflammatory conditions.

- Miconazole Nitrate: An antifungal agent that works by inhibiting the synthesis of ergosterol, an essential component of fungal cell membranes, leading to the death of the fungus.
- Neomycin Sulfate: An antibiotic that inhibits bacterial protein synthesis by binding to the bacterial ribosome, effective against a wide range of gram-positive and gram-negative bacteria.

Benefits

- Comprehensive Treatment: Combines a potent corticosteroid, antifungal, and antibiotic in one formulation, addressing multiple aspects of dermatological infections.
- Relieves Inflammation: Provides fast relief from inflammation, redness, and itching associated with skin conditions.
- Broad-Spectrum Action: Targets both fungal and bacterial infections while reducing symptoms of skin irritation and infection.
- Convenient Topical Application: Easy-to-apply cream formulation that provides localized treatment without systemic side effects.

How to Use

1. Clean the Affected Area: Wash and gently dry the affected skin area before applying the cream.
2. Apply a Thin Layer: Apply a thin layer of cream to the affected area.
3. Massage In: Gently rub the cream into the skin until it is fully absorbed.
4. Use as Directed: Apply as prescribed by your doctor, usually once or twice a day.
5. Avoid Contact with Eyes: Do not apply the cream near the eyes, mouth, or mucous membranes.
6. Wash Hands After Use: Wash your hands thoroughly after applying the cream unless your hands are the treated area.

Precautions

- **Allergic Reactions:** If you experience irritation, itching, or signs of an allergic reaction, discontinue use and consult your doctor.
- **Not for Large Areas:** Avoid applying to large areas of broken or sensitive skin, especially over extended periods.
- **Prolonged Use of Steroids:** Prolonged use of clobetasol, a potent corticosteroid, may cause thinning of the skin or other side effects. Follow your doctor's instructions carefully.
- **Not for Use in Children:** Should be used with caution in children and only under medical supervision due to the risk of side effects from the corticosteroid.
- **Avoid Eye Contact:** Do not apply the cream to the eyes, and avoid contact with mucous membranes.
- **Pregnancy and Breastfeeding:** Consult your healthcare provider before using during pregnancy or while breastfeeding.

Storage Instructions

- Store at room temperature (15°C to 30°C), away from direct sunlight and moisture.
- Keep the tube tightly closed and out of reach of children.
- Do not use after the expiry date printed on the packaging.

Effective Relief for Skin Infections with Inflammation

This cream provides a powerful and effective solution for treating inflammatory skin conditions complicated by fungal or bacterial infections. With the combined action of clobetasol, miconazole, and neomycin, it helps control inflammation, fight infection, and alleviate discomfort associated with various skin conditions.
