

Information For the User
D-Mannose 600mg Cranberry Extract (25% Proanthocyanidins) 300mg Chewable Tablet (veg)

Uriviga Pro Tablet

Uriviga Pro Tablet

Dosage Form: Chewable Tablet (Vegetarian)

Composition:

Each chewable tablet contains:

D-Mannose 600 mg

Cranberry Extract (Standardized to 25% Proanthocyanidins) 300 mg

Description:

Uriviga Pro Tablet is a nutraceutical formulation containing D-Mannose and Cranberry Extract, indicated for urinary tract health support. The formulation helps prevent bacterial adhesion to the urinary tract lining and supports maintenance of normal urinary function. It assists in reducing recurrence of urinary discomfort and promotes urinary tract wellness.

Indications:

Urinary tract health support

Prevention of recurrent urinary tract infections

Management of urinary discomfort and burning micturition

Dosage & Administration:

Dosage should be as directed by the physician.

Tablet should be chewed properly before swallowing.

Adequate fluid intake is recommended during therapy.

Pharmacological Action:

D-Mannose prevents adherence of uropathogenic bacteria, particularly *E. coli*, to the urinary tract epithelium, facilitating their elimination through urine.

Cranberry Extract containing proanthocyanidins inhibits bacterial attachment to urinary mucosa and supports urinary tract protection.

The combination helps maintain urinary tract hygiene and reduces bacterial colonization.

Side Effects:

Generally well tolerated.

Mild gastrointestinal discomfort or bloating may occur in some individuals.

Precautions & Warnings:

Use under medical supervision.

Patients with diabetes should use cautiously due to sugar content.

Not intended as a substitute for antibiotic therapy in acute infections unless advised by a physician.

Drug Interactions:

No clinically significant drug interactions reported when used as recommended.
Consult physician before use with other urinary medications.

Storage:

Store below 25°C in a cool, dry place.
Protect from light and moisture.
Keep out of reach of children.
