

Information For the User
Ursodeoxycholic Acid (600mg) SR Tablet

Udostep 600 SR Tablet

Udostep 600 SR Tablet

Dosage Form: Sustained Release Tablet

Composition:

Each sustained release tablet contains:
Ursodeoxycholic Acid I.P. 600 mg

Description:

Udostep 600 SR Tablet contains Ursodeoxycholic Acid, a bile acid used in the management of cholestatic liver diseases and gallstone dissolution. The sustained release formulation ensures prolonged therapeutic action and better tolerability. It works by reducing cholesterol saturation in bile, improving bile flow, and protecting liver cells from bile acid-induced damage, thereby supporting overall hepatic function.

Indications:

Cholestatic liver diseases
Primary biliary cholangitis
Dissolution of cholesterol gallstones
Non-alcoholic fatty liver disease (as supportive therapy)
Drug-induced cholestasis

Dosage & Administration:

Dosage should be taken as directed by the physician.
Tablet should be swallowed whole with water after meals.
Do not crush or chew the sustained release tablet.

Pharmacological Action:

Ursodeoxycholic Acid decreases hepatic cholesterol secretion and intestinal cholesterol absorption, thereby reducing cholesterol concentration in bile. It improves bile flow, stabilizes hepatocyte membranes, and protects liver cells from toxic bile acids, supporting liver regeneration and function.

Side Effects:

Diarrhea
Abdominal discomfort
Nausea
Rare allergic reactions

Precautions & Warnings:

Use under medical supervision only.
Regular monitoring of liver function tests is recommended.
Use cautiously in patients with advanced liver disease.
Not recommended during pregnancy and lactation unless prescribed by a physician.

Drug Interactions:

May interact with bile acid sequestrants, antacids containing aluminum, and certain lipid-lowering agents.

Consult physician before concomitant use with other medications.

Storage:

Store below 25°C in a dry place.

Protect from light and moisture.

Keep out of reach of children.

Manufactured in India for:
