

Information For the User
Piracetam I.P. 500mg

Xurocetam Syrup

Brand Name: Xurocitam Syrup

Dosage Form: Syrup

Therapeutic Category: Nootropic / CNS Stimulant

Composition:

Each 5ml contains:

- **Piracetam I.P.** – 500 mg
- Flavoured Syrupy Base – q.s.

Description:

Xurocitam Syrup contains Piracetam, a cyclic derivative of GABA (gamma-aminobutyric acid), known for its nootropic (cognitive enhancing) effects. It improves neuronal function and microcirculation without vasodilation.

Indications:

- Cognitive disorders including memory and learning deficits
- Cerebral stroke rehabilitation
- Myoclonus of cortical origin
- Sick cell anemia-related crisis (as adjunct)
- Developmental delay and learning disorders in children

Pharmacological Action:

Piracetam enhances neuronal and vascular function, improves neuroplasticity, and modulates neurotransmitter release. It facilitates the transmission of information across brain hemispheres and improves brain metabolism.

Dosage and Administration:

As directed by the physician.

Pediatric Use: Commonly administered 30–50 mg/kg/day in divided doses.

Can be taken with or without food.

Contraindications:

- Severe renal impairment
- Cerebral hemorrhage
- Hypersensitivity to Piracetam or related compounds

Precautions and Warnings:

- Dose adjustment required in renal dysfunction
- Use with caution in bleeding disorders
- Gradual dose reduction advised before discontinuation, especially in myoclonus

Adverse Effects:

- Nervousness, weight gain
- Hyperkinesia
- Sleep disturbances
- Gastrointestinal upset (nausea, diarrhea)

Storage:

Store in a cool, dry place. Protect from direct sunlight. Do not freeze.

Shelf Life:

24 months from the date of manufacture

Manufactured in India for:

Cafoli Lifecare Pvt. Ltd.

(An ISO 9001: 2015 Certified Co.)
