

Information For the User
Gabapentin (100mg) + Nortriptyline (10mg) Tablet

Gabaxuro NT 100

Brand Name: Gabaxuro NT 100 Tablet

Composition:

Each film-coated tablet contains:

Gabapentin IP 100 mg

Nortriptyline Hydrochloride IP equivalent to Nortriptyline 10 mg

Therapeutic Indication:

Indicated for the management of neuropathic pain associated with diabetic neuropathy, postherpetic neuralgia, and other chronic nerve pain conditions

Also used in certain mood and anxiety disorders where nerve pain coexists

Combination provides synergistic effect in reducing nerve pain and improving sleep and mood

Mechanism of Action:

Gabapentin is an anticonvulsant that modulates calcium channels in the central nervous system, reducing excitatory neurotransmitter release and nerve pain

Nortriptyline is a tricyclic antidepressant that inhibits the reuptake of norepinephrine and serotonin, enhancing pain modulation pathways

Together, they work synergistically to relieve neuropathic pain and improve patient comfort

Dosage & Administration:

Usual adult dose: one tablet once or twice daily, preferably at bedtime or as directed by the physician

Swallow whole with water, with or without food

Dose should be individualized based on response and tolerability

Contraindications:

Hypersensitivity to Gabapentin, Nortriptyline, or any component of the formulation

Concurrent use with monoamine oxidase inhibitors (MAOIs)

Recent myocardial infarction, arrhythmias, or uncontrolled epilepsy

Pregnancy and lactation unless clearly needed

Warnings & Precautions:

Use with caution in patients with hepatic or renal impairment, cardiovascular disease, or history of psychiatric illness

Monitor for mood changes, suicidal thoughts, or behavioral changes

Avoid alcohol and CNS depressants during therapy

May cause drowsiness or dizziness – caution while driving or operating machinery

Side Effects:

Common: dizziness, drowsiness, dry mouth, constipation, weight gain, blurred vision

Less common: nausea, fatigue, edema, headache

Rare: mood changes, arrhythmia, allergic reactions

Storage:

Store in a cool, dry, and dark place below 25°C
Protect from moisture and sunlight
Keep out of reach of children

Packaging:

Gabaxuro NT 100 Tablet is available in blister or alu-alu strip packs

Schedule:

Schedule H Prescription Drug – To be sold by retail on the prescription of a registered medical practitioner only
